Trojan:JS/Redirector.E

is also known as *Win32/Spy.Bancos.U*, *Trojan-Spy.Win32.Bancos.ha*, *PWS-Banker.gen.h*

.

Explanation :

Trojan:JS/Redirector.E is detection for a specific JavaScript appended to HTML files, that are typically used to redirect users to Web sites other than expected. This JavaScript trojan may be injected into an HTML page, or may be present on a malicious Web site. It is also possible for an attacker to craft HTML-based e-mail messages containing the script.
